

Alexandra Park Primary School

Care, Aspire, Achieve

Reading Report 2022-23

At Alexandra Park, we provide our children with a high-quality reading education that enables them to be confident and ambitious readers with a passion for reading. We aim for our children to gain knowledge, understanding and curiosity through reading that remains with them for life. The curriculum is designed to develop phonological awareness, fluency through accuracy, phrasing, pace and smoothness, reading for meaning and a full range of comprehension skills and strategies. Children will be both inspired to read and inspired by reading and texts will be carefully chosen to match our school values, support other areas of the curriculum and to challenge the children's reading ability.

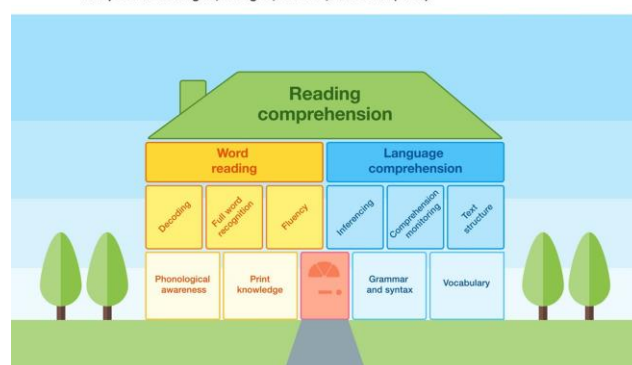

Fundamental Great British Values

At Alexandra Park Primary School, we understand clearly our responsibility in preparing children for their next stage of education and for the opportunities, responsibilities and experiences of later life, laying the foundations so that they can take their place successfully in modern British society. We promote a respect for and understanding of different faiths, cultures and lifestyles. The spiritual, moral, social and cultural development of each child is central to everything that we do as a school and central to our vision of "Care, Aspire, Achieve". This is evidenced through our teaching and learning, our inclusive environment and through the many opportunities provided for our children to understand democracy, law, liberty, mutual respect and tolerance through the delivery of the curriculum and the reading material children are exposed to.

Planning

The teaching of reading across the school encompasses all the key aspects of a skilled reader in order to develop readers who comprehend, enjoy and learn from what they read. Planning is matched to the progression document which ensures coverage of all aspects of the National Curriculum. Reading is taught in a variety of ways, including whole class, small groups and 1:1. Through expert teacher modelling, guided and supported practise and opportunities for independent practise, all elements of reading as set out in the 'Reading House' are covered.

Assessment

The assessment of reading is a continual process which takes into account a range of information in order to best support the children's development. A fluency matrix is used in order to assess children's fluent reading and monitor progress. Standardised written comprehension tests which cover all the National Curriculum content domains are used alongside listening to children read and talk about what they have read in order to assess their understanding of a text. Pupil voice and reading engagement questionnaires are used to monitor children's love of reading so that our approaches can be adapted accordingly.

Collecting Evidence

Alexandra Park Primary School

Care, Aspire, Achieve

At Alexandra Park Primary School, we believe that all children should be provided with the equal opportunity to share their pupil voice. The process of collecting pupil voice is invaluable to the subject leader; it allows the subject leader to hear pupils' opinions, key interests and identify areas for development. Children also complete a reading questionnaire to collect evidence on their views towards reading and how they can be supported further.

The reading subject lead is non-class based which allows more time for monitoring of reading lessons. They are able to support during the planning process, take part in lesson studies and model example lessons as well as monitor through informal drop-ins, formal lesson observations and planning scrutiny.

Parents views on their child's reading are collected at parents evening in order to adapt the ways in which we can support parents.

Enrichment Opportunities

Children at our school enjoy reading and being given the opportunity to talk about books as Ofsted recognised in 2019, 'They clearly enjoy reading and talk enthusiastically about the books they read at home, in the library and at school. They rise to the challenge of reading a wide variety of books in a range of styles.' This is being built on further with the development of our KS2 library. This will provide another space for children to enjoy reading and an opportunity to further children's knowledge of literature and how to choose appropriate books.

Children also have the opportunity to meet and talk to authors and illustrators as part of our Aspire programme. This not only helps develop their love of reading but also shows them what is possible for themselves in later life if they follow their passions.

Stay and read is a weekly event held for parents and carers to come into school and read to their children. This is a very well attended session every week and both children and parents really enjoy the chance to relax with a good book.

Every half term, children will take part in paired reading, where children from the juniors pair up with younger children to share a book with them.

Targets for 2022-23

- To support staff with the planning and delivery reading lessons across the school
- To train and develop support staff to deliver high quality interventions across school in order for children to keep-up and catch-up.

Longer-term targets

- To develop the use of the newly installed library so that children can have the best access to the highest quality literature.
